

Awesome Science! packs for schools and churches

- Six sessions about Science and Faith, three packs:
 - (1) Schools pack; (2) Schools workshop with stations (90 mins)
 - (3) Church resource for children's and family sessions
- The sessions follow the themes in 'Science Geek Sam and his Secret Logbook'.
- **Church resource** with outdoor trails, Bible stories, quizzes, crafts, experiments and games. Road tested with the CofE.
- **Schools packs** are being piloted this school year (2021/22) with ages 4-11 at a UK CofE school
- *Would you like to receive news about the publication of the packs?*

Theme:	Church Activities	Outdoor trail	Story links (Bible)	School stations – activity options:
Spectacular stars <i>Astronomy</i>	Fruit planets Planet craft	Planet trail	Abraham; 'Follow the star' - three wise men; Seasons	Meteorites on the drive Fruit planet activity Planet placemats
Fiery volcanoes <i>Geology</i>	Volcano experiment Pebble painting	Rock trail	Natural forces – e.g. volcanoes in the OT	Volcano experiment Pebble painting Geology quiz
Fascinating fossils <i>Paleontology</i>	Cast fossils Felt fossils Fossil art	Fossil trail	Abundance in creation/the sea (Psalm 104)	Fossil colouring sheet Fossil ID Ammonite felts
Birds and beaks <i>Biology</i>	Beaks game Tree of life art	Bird trail	Creation sustained Creation sings (Psalms)	Bird beak game 'Clocks, trees and mountains' – discuss evolution
Fantastic Jurassic <i>Paleontology</i>	Dino bone dig Jurassic playground (cardboard dinos)	Prehistoric dinosaur trail	Large animals in the Bible: Behemoth, fish Jonah.	Dino footprints matching game Cardboard dinos Clay bones/ dino dig
Made in God's image <i>Biology</i>	Microscope to look at cells Cell sewing craft/DNA bracelet Poetry	Cell trail Collect leaves for microscope	Adam made in God's image, from dust; <i>Psalm 139</i> : God made all of us; Jesus heals people (e.g. Bethesda)	Microscope (cells) Bracelet Cell art: coaster, key ring, fridge magnet... <i>Poe-tree</i> : write a prayer or phrase inspired by Psalm 104 or 139 on a post-it and stick on a cardboard tree

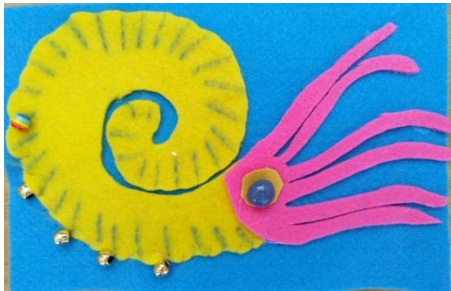

"Inspiration for future generations of faith-filled scientists!"
Rev. Kate Bottley, broadcaster and vicar
"Fast moving and utterly delightful, these Year Six pupils puzzle their way through the big questions of the universe. Stars, planets, the age of the earth, and the evolution of life (and who likes whom at school of course)." **Tom McLeish**, Professor of Physics, Durham

Fiction | Paperback | 208 pages Lion Children's Books | 2017

Science in action: Exploding volcanoes, Rocks & Fossils, Dinosaur bones, Birds beaks...

Science trails, Bible stories, games & crafts

Our **Science Geek Sam book club** (2022) covered the following

Week 1	Space rocks and planets	P 1-37	Meteorites, Big Bang, astronomy
Week 2	Dinosaurs	P 38-73	More meteorites, dinosaurs, Bible & Science
Week 3	Evolution & animals	P 74-105	Age of the universe, Evolution, intelligent animals
Week 4	Geology & Fossils	P 106-133	Tectonic plates, fossils, archaeology
Week 5	How humans work	P 134-175	People, bodies, cells
Week 6	A bit more Darwin. Rounding off.	P 176 - 198	More evolution. How do the Bible and Science go together? End of the book. Quiz and questions.

- We discussed, played quizzes, asked questions, did games, crafts and experiments. We also talked about writing fun and adventurous stories 😊
